1. The first step is to identify the key components of the system. This includes the hardware, software, and data. The hardware components are the physical devices that make up the system, such as the computer, the network, and the storage devices. The software components are the programs and applications that run on the hardware. The data components are the information that is stored and processed by the system.

HRN ABSENTEE AUCTION SALE XXXII

CONDITIONS OF SALE

1. Since the mail is not always dependable, and in order to give our clients more personalized service, we strongly recommend that you call your bids in using our WATS line 1-800-221-7276, N.Y.S. residents may call 1-212-751-1900. We will be happy to assist you with your bidding, answer any questions or give more exact descriptions of the lots.
2. Each lot in this sale has both a current estimated value and a minimum bid price. The estimated value is intended as a guide to assist you in your bidding, while the minimum bid is the lowest acceptable bid for the lot.
3. Bids below the stated minimum will not be honored.
4. You may call at any time prior to the closing of the sale to check the status of your bid. At that time you will be informed of the highest current bid. You may then, of course, raise your bid if you desire.
5. Your bid, either written or oral, grants HRN the authority to protect you up to the amount of the stated bid (or percentage increase as provided for on your bid sheet).
6. The current bid is determined by taking the second highest bid, then increasing it by one bidding increment. Increments will be as follows:

Up to \$100 — increments of \$5
\$100 to \$300 — increments of \$10
\$300 to \$800 — increments of \$25
\$800 to \$1500 — increments of \$50

\$1500 to \$5000 — increments of \$100
\$5000 to \$10,000 — increments of \$250
\$10,000 and over — increments of \$500

Example — you bid \$1000 on a lot, which is the highest bid received to date. The second highest bid is \$500—the current bid is yours at \$525. Any bid received below \$1000, will automatically be topped by the auctioneer, bidding for your account.

7. In the event of tie bids, the earliest bid received will be adjudged the winner.
8. Pledged bids will not be disclosed by the auctioneer, only the current high bid.
9. A 10% buyers premium will be added to the hammer price.

10. Incoming phone bids will be accepted up to 5:30 P.M., New York time, on the closing day April 12, 1989. Any calls already on hold at that time will be accepted. Calls coming in after 5:30 will not be honored. The mail is not always prompt. If the sale date is less than one week away, please call your bids in. Please call in your questions about lots at least one day prior to the closing day. Otherwise, we may not be able to spend as much time with you as necessary, due to the last minute rush.
11. **Viewing of the lots will end at 3:00 P.M. on the closing day. At that time the gallery will be cleared, and bids after 3:00 P.M. will be accepted only by phone. No one will be allowed to bid in person at the gallery after 3:00 P.M., New York time, on the closing day of the sale.**
12. **Call Back Service:** If you desire a call back on any lot you have been outbid on, please place an asterisk on your bid sheet next to those lots. Any lots that have not been resolved prior to the closing time, will be resolved by call backs over the next few days, during regular business hours. Please indicate the telephone number, on your bid sheet, where you can be reached between 10:00 A.M. - 5:00 P.M. New York time. Bidder will forfeit call back rights if we are unable to reach you.
13. You will be permitted to increase bids only on lots that you have placed bids on prior to 5:30 of the closing day. No bidding will be permitted on additional lots which you have not placed a bid on prior to the closing time, during the call back period.
14. The highest bidder shall be the purchaser, as determined by the auctioneer. In the case of a disputed bid, the auctioneer will have sole discretion in determining the winner of any lot. If necessary he may reoffer the lot for sale.

15. All lots are guaranteed genuine as described, both as to condition and authenticity. Any lot may be returned within 10 days if inaccurately described as to culture, date and extent of damage.
